Description

CALDWELL'S MINERALOGICAL SURVEY PROP

from

COLONY IN SPACE (1971)

THE ITEM

This is the prop used by Bernard Kay as the IMC mineralogist, Caldwell, as he examines rocks from the surface of Uxarieus whilst being questioned by the Doctor in Episode 3 of the Jon Pertwee story, *Colony in Space*.

The prop is 152mm in length and is fully constructed from metal. One of the thin blue bands at the end of the prop has become detached, but could easily be glued back on if so desired.

THE PROVINANCE

The prop was built by Ian Scoones, the visual effects designer for *Colony in Space* and it was given to me by Ian back in 1990, when I interviewed him for the fanzine *Proteus*. It has been in storage ever since.

Ian indicated that in common with a number of props he built, this had also been reused in a later (unknown) programme he worked on, which appears to be when the red banding was added.

DELIVERY

The prop will be sent via Special Delivery of the user is within the UK.

Full payment is required within seven days unless agreed otherwise. For bidders within the UK, payment should be made by cheque. Bidders outside the UK may use PayPal, but the transaction fee incurred will be added to the total cost.
