Description

DR WHO: TIME AND THE RANI

Original prop Tetrup creature

This is a rare opportunity to own an original prop from this cult, world-renowned tv series.

These tetrap creatures appeared in the season 24 episode Time and the Rani. They were made for the miniature special effects cave set, to hang from the ceiling and make it look like a giant cavern when it finally appeared on screen.

This Tetrup is made of foam latex with painted detailing and covered in hair. It measures approximately 38cm (15 inches) long. We obtained the Tetrup from a member of the crew who worked for many years with the BBC, including on the Dr Who series.

The Tetrax is in excellent condition, especially considering it is nearly 15 years old! There are small cracks on the surface and in the paintwork over the surface, but most of these are superficial. Along the seams (down the sides) some of the paint has flaked away in small patches. and also along the top edges of the ears, but these small patches of wear are all minor.

This great sleeping Tetrax is covered in wonderful details, including four closed eyes (three on the front and one on the back of the head), bared teeth and claws on his hands and feet.

Please note: unwarranted and unreasonable bid retractions will no longer be tolerated, and WILL be reported to e-Bay immediately. Sorry to be so strict about this, but we have had several problems in the past with unnecessary and malicious bid retractions and non-paying bidders. I understand that most people who use E-Bay are decent, but there are always some who try to spoil it for everyone.
